Telephone 403/431-2300
Fax 403/432-1376

October 3, 1997

As you are aware the application approval process for petroleum and natural gas industry related activities has undergone and continues to undergo change. Alberta Community Development is currently re-evaluating its program regarding the protection of historical resources and how this program and its associated procedures affect your industry. Throughout the past few years Alberta Community Development has consulted with other agencies and representatives of the petroleum and natural gas industry, most notably the Canadian Association of Petroleum Producers (CAPP) and the Canadian Energy Pipeline Association (CEPA). In April 1996, as part of this review process a forum titled *Cultural Resource Management and the Energy Industry: New Perspectives and Partnerships* was held in Calgary. It is the intention of Alberta Community Development to implement many of the recommendations which ensued from the forum. Potential changes to the historical resources management program for the petroleum and natural gas industry will be discussed further during the remaining months of 1997, and we hope implemented in 1998. However, it has become necessary for our Department to initiate interim measures regarding the protection of historical resources vis-a-vis well sites.

On October 6, 1997 the Alberta Energy & Utilities Board (EUB) will implement their new "Well License Application" process. With the implementation this new application the internal referral - response process between the EUB and Alberta Community Development will be discontinued. In the past, when a "Well Licence Application" was submitted to the EUB, Board staff would check their records to determine whether Alberta Community Development should be consulted. When necessary the EUB would then refer the application to Alberta Community Development. Alberta Community Development would then review the application to decide whether an Historical Resources Impact Assessment was required for the well site or any associated access road. As of October 6, 1997 the applicant becomes responsible for determining whether each well requires the Department of Alberta Community Development to grant *Historical Resources Act* clearance. In order to assist you in this determination the *Listing of Significant Historical Sites and Areas* has been printed. An electronic copy of the data will be accessible in the near future. For further information regarding your responsibilities regarding historical resources within the framework of the EUB's new "Well License Application" process, consult the EUB's *Energy Development Application Guide and Schedules Appendix 2, Volume 2 of 2*. Should you have any questions do not hesitate to contact Community Heritage Services, Historic Sites Service, Alberta Community Development at 431-2300. Also, at 1:00 p.m. on October 15, 1997 staff of Alberta Community Development will be at Govier Hall (EUB) to provide a brief presentation outlining the role of historical resources within the EUB's new application process.

Dr. W. J. Byne
Assistant Deputy Minister
Cultural Facilities & Historical Resources Division

Historical Resources and the EUB's Well Licensing Application Process

The historical resources management program for well sites is discussed within the EUB's *Energy Development Application Guide and Schedules Appendix 2, Volume 2 of 2*. The program concentrates upon well sites targeted for lands upon which historical resources have been recorded and/or topographic features that have a high potential for the presence of historical resources. The implementation of the program for well sites has two stages. The program has been phased into the EUB's Energy Development Application. The first phase involves well sites situated on lands upon which Alberta's most significant historical resources are located and buffer zones adjacent to these lands. These lands are identified within the *Listing of Significant Historical Sites and Areas*. With the implementation of the EUB's new well license application process the applicant becomes responsible for determining whether each well is located on lands that are identified within the *Listing of Significant Historical Sites and Areas*. If the well site **does not** involve listed lands, on the EUB's Energy Development Application, Schedule 4, Section 9, check the NO box next to the question:

The proposed well site requires the approval of Alberta Community Development?

If the well site **does** involve listed lands, on the EUB's Energy Development Application, Schedule 4, Section 9, check the YES box next to the question:

The proposed well site requires the approval of Alberta Community Development?

If the well site does require *Historical Resources Act* clearance the applicant must complete a Historical Resources Overview form and submit it directly to the Resource Management Program, Community Heritage Services, Historic Sites Service, Cultural Facilities & Historical Resources Division, Alberta Community Development, Old St. Stephen's College, 8820 - 112 Street, Edmonton, Alberta, T6G 2P8 (telephone: 403-431-2300; fax: 403-427-3956).

The *Listing of Significant Sites and Areas*

The *Listing of Significant Historical Sites and Areas* identifies those sections upon which are located historical resources which are considered to be the most important resources that have been recorded within the Province. The list contains only a small percentage of the total number of historical sites and areas which have been recorded. For this printing, minor corrections have been made to the *Listing of Significant Historical Sites and Areas* updated to January 31, 1993. During the next few months the listing will be revised and updated. The next edition of the listing will be available for distribution in April 1998.

The listing is ordered by township from south to north, and by meridian and range starting at the Saskatchewan border and proceeding westward to the British Columbia border. This order is similar to that which is used by Alberta Energy for the Sale Notices. In some instances a legal description occurs more than once. This indicates that the section contains and/or is situated adjacent to more than one significant historical resource or area.

Historical Resource Value: The sections of land that are listed have been assigned an historical resources value (HRV). This value is based upon whether the historical resource has been designated under the *Historical Resources Act*, and at what level the site has been designated.

- HRV 1 = Provincial Historic Resource. An historical resource which was been designated as a Provincial Historic Resource is situated within the section. Provincial Historic Resources are not to be impacted by any petroleum and natural gas related activities. Surface access to the section will be subject to specific restrictions. An Historical Resources Impact Assessment will likely be required.
- HRV 2 = Registered Historic Resource. An historical resource which has been designated as a Registered Historic Resource is situated within the section. Registered Historic Resources are not to be impacted by any petroleum and natural gas related activities. Surface access to the section will be subject to specific restrictions. An Historical Resources Impact Assessment will likely be required.
- HRV 3 = Significant Historic Resource. A significant historical resource is situated within the section. The historical resource is not to be impacted by any petroleum and natural gas related activities. Surface access to the section will be subject to specific restrictions. An Historical Resources Impact Assessment will likely be required.
- HRV 4 = Buffer Zones. Lands which have been categorized as possessing an historical resource value of "4" are situated adjacent to a Provincial Historic Resource, Registered Historic Resource and/or a Significant Historic Resource. Surface access to the section may be subject to specific restrictions. An Historical Resources Impact Assessment may be required.

Copies of the *Listing of Significant Sites and Areas* can be obtained at the Queen's Printer Bookstores:

11510 Kingsway Avenue
Edmonton, Alberta
T5G 2Y5
Telephone 403-427-4952
Fax 403-452-0668

Main Floor, McDougall Centre
455 - 6th Street S.W.
Calgary, Alberta
T2P 4E8
Telephone 403-297-6251
Fax 403-297-8450

Should you have any questions or require additional information, do not hesitate to contact Community Heritage Services at telephone: 403-431-2300; fax: 403-427-3956.

This *Listing of Significant Historical Sites and Areas* is provided subject to the condition that Her Majesty the Queen in right of the Province of Alberta and her employees:

- [1] Hereby disclaim and are released from any and all responsibility for the information in, and any omission of information from the listing; and,
- [2] Shall not bear any responsibility for any loss or damage of any kind arising from or in respect of any absence of information or any errors or omissions (whether the aforesaid occasioned by negligence or otherwise) in or affecting the *Listing of Significant Historical Sites and Areas* or the information therein.
